

# Pet Fill Pharmacy Software

## *ePostRx Pet Fill*

The functionality of ePostRx gives the Client the flexibility to support dispensing in a pet mail order pharmacy environment. ePostRx is ideal for high-volume pet pharmacies offering:

- Highly Configurable business workflows
- Electronic workflow queues
- Automated routing from station to station
- Centralized database
- Automated Order Entry via multiple interfaces, e.g., Client Web Portal, ePrescribing, Mobile Apps, etc.
- With ePostRx client owns and controls 100% of their data
- Multi-location support with “automatic smart” routing
- Scalability
